

# The demand is **REAL**

*...and National Aviation Academy is providing the solution!*

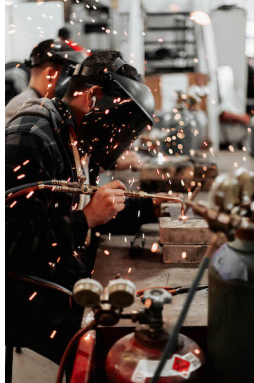

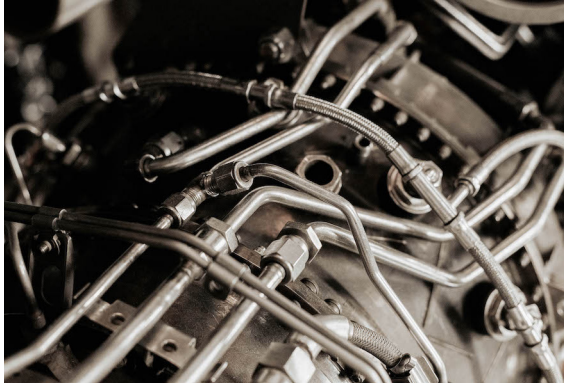

Boeing's 2020 Pilot & Technician Outlook forecasted that 739,000 new aviation maintenance technicians will be needed globally by 2039. What does that mean? Hands-on learners need training for in-demand positions!

Federal Aviation Administration (FAA) approved training schools, like **National Aviation Academy (NAA)**, are a crucial component to meeting the current and future demands of the aviation workforce. Our mission is to provide the highest-quality aviation maintenance training at the best value in the shortest amount of time.

- Established in 1932, NAA has a nearly 90-year legacy of aviation maintenance training.
- Training is hands-on, and takes place in aircraft hangars, labs, and classrooms.
- NAA is an FAA-Approved Part-147 school, one of a limited number of institutions able to train Airframe and Powerplant (A&P) technicians.
- Campuses are located in desirable and diverse communities in Clearwater, FL, and Concord, MA. NAA graduates have been placed globally!

ACADEMY

## TWO EXTRAORDINARY CAMPUSES

If you want a rewarding career at the center of the action in an in-demand field, NAA training is for you! Our campuses are where you will train to work on, fix, and maintain aircraft. They also happen to give access to award-winning beaches and theme parks in Florida, or historical sites and cultural opportunities in Massachusetts!

## ACCELERATED, HANDS-ON TRAINING

Obtaining your A&P certifications from NAA is a mark of dedication, professionalism, and job-worthiness. These qualities, among others, are why industry leaders recruit our graduates.

Our Aviation Maintenance Technology program is a fast yet thorough path to certification. You can complete it in as little as 14 months! 7 months of avionics training is also available to level up your skills and prepare you for the future of the industry!

## STUDENT LIFE AND SERVICES

Student Services provides resources to support and enhance your educational experience while at NAA. Services include housing, transportation, and employment assistance, as well as annual resource fairs and student discount programs.

## HOW TO PAY FOR YOUR EDUCATION

Financial aid is available for those who qualify to make a quality aviation maintenance education possible for students from all walks of life.

Financial aid may cover educational expenses, including tuition, fees, books, and supplies. Many types of aid are available such as grants, scholarships, and loans. Eligible Veterans may use their GI-Bill® or Post-911 benefits.

## LIMITLESS OPPORTUNITIES

NAA's Career Services department helps students nearing graduation, recent grads, and alumni find employment in the aviation industry. Interview tips/techniques, career counseling, and resume development are provided to all students.

We also hold three career fairs at both campuses per year. Recruiters from commercial, corporate, and general aviation companies, manufacturers, military/defense contractors, space innovators, MRO (maintenance, repair, and overhaul) providers, and parallel industries come directly to you!

This skilled department builds and maintains relationships with industry leaders who recruit from NAA directly. Blue Origin, Boeing, Delta TechOps, Endeavor Air, General Atomics, General Electric Aviation, SpaceX, and *many more* have attended NAA Career Fairs!

## COME VISIT OR LEARN MORE ONLINE!

We know that you are hands-on, so the best way to find out what it's like to attend NAA is by seeing it for yourself. **Schedule a tour today!**

Can't make it to campus yet? Learn more online! You can discover so much about who we are and what you're future aviation maintenance career can look like by checking out our website and social media, or by taking a virtual tour! It's the next best thing to being here.

Each class has limited availability. Contact us to learn more about admissions requirements or apply below!
